SM5

NEW GENERATION TENSION METER FOR ANY BELTS TYPES.

PROPERTIES :

- Back light display (LCD)
- Light beam indicating the right position for the measure .
- Optimized measurement distance, from 2 to 5 cm between the sensor and belts back
- Battery life indicator.
- Very good ergonomics, very easy to use .
- Very good price/ performance ratio .

ADVANTAGES :

Correct pre-tension enhances the operation of any belt drive by :

- Increasing the servicelife and minimizing the bearing load
- Improving both tooth meshing and positioning,
- Reducing noise level.

SPECIFICITIES OF THE SM5:

- Frequency range : 7 à 450 Hz.
- Accuracy +/- 5% ; (higher on demand).
- Supplied with a 9V – long-life battery(6LR61)
- Conform to CE norms
- Automatic delay.
